### **EVALUATION**

Tutorial exercises (quizzes, reflection pieces, group work, etc): 55 marks

Midterm and final : 45 marks

### **IMPORTANT**

This is an in-person class, and both lecture and tutorial attendance are very important. A significant portion of your grade will consist of tutorial exercises. If, for a legitimate and serious reason, you must miss a tutorial, there will be one opportunity to make up a missed exercise from before the midterm (to be made up in the tutorial period following the midterm test) and one opportunity to make up a missed exercise from after the midterm (to be made up in the tutorial period following the final test).

If you have accommodations and wish to make use of them for tests please let us know.
